

OECD rates education levels

Video Source: <http://www.abc.net.au/lateline/content/2012/s3588084.htm>

Listen to the recording and answer the questions below.

1. Overall, how does Australian rank in education?

2. According to the OECD report, how many 25 to 34 year old Australians have some kind of tertiary education?

3. How does Australian rate among other OECD members?

4. Which country has the highest percentage of people with tertiary level of education?

5. What is 'social mobility'? Why did the report give Australia 'a very big pat on the back'?

6. What percentage of GDP does Australia spend on education? What's the average for OECD countries?

7. How much does every student 'cost' in Australia?

8. In which area of education does Australia not perform particularly well?

9. In terms of early education how does Australia rank compared to other OECD countries?

10. How does Australia compare to other OECD countries in terms of teacher salaries?
